To Whom It May Concern.

Turbocam Inc. had a requirement for additional CNC machines (EMAG Singlet, Robert Morris VTM 100 and a Multi Grind) to service the increasing needs of one of our major clients.

The equipment was customized to meet our client's expectations in regards to absolute minimum tolerances required in the manufacturing of impellers, turbines, rotors and other components of high performance rotating equipment for the aerospace industry.

Many lenders could not get comfortable with this type of modified equipment but CG Commercial spent the time to understand it along with our business history and our high profile clients.

CG Commercial successfully funded our transaction with a very competitive rate after solving some existing lien problems we had with past lenders.

Based upon CG Commercial's expertise and execution of this transaction we have engaged them again to provide financing for our upcoming capex needs.

We value our partnership with CG Commercial.

A handwritten signature in blue ink that reads "Dave Zelic". The signature is fluid and cursive, with the first name "Dave" and last name "Zelic" clearly distinguishable.
