Dear Adam,

I would like to take this opportunity to thank you and the entire CG Commercial Finance team for all of your help with the funding of the equipment leases for CEMEX.

I have been with CEMEX for the past four years and have initiated over 100 lease transactions on behalf of CEMEX, Inc. and its subsidiaries. There have always been challenges in closing transactions especially when initiating a new relationship.

I would like to commend you for the ease and speed with which you set up the relationship and your team's no-nonsense approach taken within your funding process. I appreciate having a trusted partner who can provide the capacity and competitive rates that we demand over many years to come.

We are excited about continuing our relationship and look forward to working with you and the entire team at CGCF.

Sincerely,
